

LEASING OPPORTUNITY

DRYAIR greenhaw™ hydronic heating units. With a patented reversing valve you save time and energy when thawing ground or curing concrete. Choosing the right equipment is critical in cold weather applications. Don't be let down by other units. Choose the most efficient and reliable way to thaw and cure. Choose DRYAIR. **Deep Discounts on Seasonal Leases. Call Today to Reserve Yours!!**

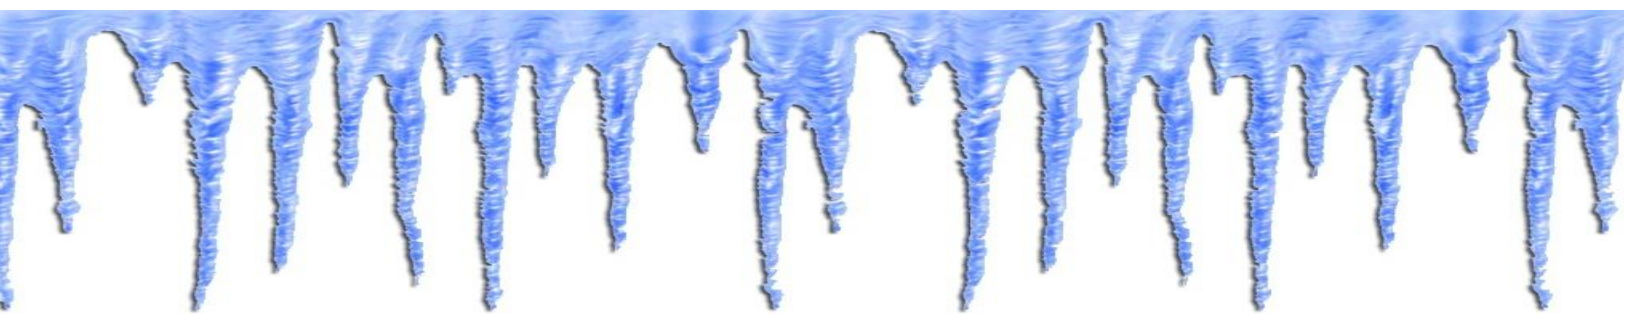

Keeping the power onsite is a must in the winter. Equipment needs to be plugged in and heaters need to run. On Demand Power can be achieved with All Rental Inc. generators from quality manufacturers you know and trust. Discounts provided for seasonal leases.

Frost Blankets for available keeping you covered in the cold. Heavy weight for thawing, curing, or keeping the frost out. Each year most companies have difficulty finding enough blankets mid-season. Get yours on order now to ensure you have the quantity required for the cold winter months.

Cords, Cables, Temp Lighting, T-Boxes, Shore Cords and more. Get the power where you need it. With these extreme weather devices and cords you will have no problem storing or utilizing them in the harshest conditions.

Frost Fighter Heaters are a great way to start equipment on the coldest of days. With the optional accordion ducts you can place the heat exactly where you need it. This saves on wear of parts and provides heat to start the diesel engines no matter the situation. Being able to have a separate intake and exhaust also makes these heaters the right choice for heating large areas from an external platform. An excellent choice for temp heat for buildings, shops, new construction, equipment starting and maintenance.

L.B. White is a name you know and trust for dependable structure heat. With the ever expanding product line L.B. White can make the heat when you need it on a wide range of fuels. The applications are endless.

The heat is on with All Rental Inc. call today to get your heating solutions on order. There is a limited supply at the lowest rates of the season and you don't want to be left out in the cold.
